Fairfax Cryobank

The Trusted Choice for Donor Sperm

3015 Williams Drive, Suite 110
Fairfax, VA 22031, USA
800-338-8407 or 703-698-3976
Fax: 703-698-3933
info@fairfaxcryobank.com

Why Choose Fairfax Cryobank?

A healthy, educated, diverse selection of Non-ID and ID donors that meet or exceed our high semen quality standards. Approximately 1% of donor applicants are accepted due to our stringent requirements.

More infectious and genetic disease testing than any other sperm bank. In fact, we're the only sperm bank to screen for the HPV and Herpes viruses by DNA testing.

Extensive services such as FaceMatch™, photo matching, and donor selection counseling to ensure your choice of donor best meets your needs.

A caring and skilled professional staff with broad experience in screening donor candidates, that is committed to optimizing donor quality. We offer credentials you can count on: FDA compliant; accredited; licensed to ship in all 50 states and internationally; accredited with the Better Business Bureau (BBB).

A Pregnancy Pledge We're so confident that we can help you realize your goal of having a child that – if after four attempts you're still not pregnant – we'll give you a vial for free! (some restrictions apply; please see our website)

Visit fairfaxcryobank.com for more information.

For over 30 years, Fairfax Cryobank – one of the world's largest sperm banks – has been committed to helping individuals and couples build happy families. With donors from more geographical locations than any other sperm bank and our highly rigorous screening process, Fairfax Cryobank gives you the selection you desire with the safety you demand.

Finding Your Donor Match

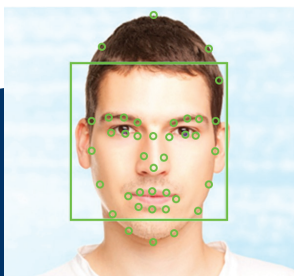

Fairfax Cryobank understands how important finding the right donor is to you and your family. Our Donor Search and Client Services Specialists assist you in making your important donor selection. Updated daily, our interactive donor search allows you to search by several specific attributes that are most important to you.

You can use criteria that matter to you to select from our extensive donor list. Choose from two categories of donors: Non-ID and Identity (ID). All donors are tested to the same high standards and have extensive medical and personal information available. ID donors allow your child, with a registered birth, the option of obtaining the donor's contact information from Fairfax Cryobank when he or she reaches the age of 18. Non-ID donors agree to participate as sperm donors but have asked not to have their identifying information shared with recipients or adult children. In addition, a large percentage of donors are pursuing or have completed graduate level education. Our CLI donors come from our sister sperm bank, Cryogenic Laboratories, Inc. (CLI), and have the added advantage of very attractive pricing.

All donors have significant information available including childhood photo, medical profile, personal profile, our staff's impression of the donor's personality and physical appearance, audio clips from the donor as well as from our staff about the donor, full audio interviews, personality testing, and essays. Many of our donors have adult photos so you can see what they really look like.

FaceMatch™

FaceMatch™ is Fairfax Cryobank's exclusive free online service where you upload a photo and we list the donors that most resemble that photo. Used nearly 300,000 times since its inception, it is one of the most popular services offered.

Your search for the perfect donor just got easier:

- 1 Select your sperm donor using our online Donor Search: www.fairfaxcryobank.com
- 2 Place your order by calling 800-338-8407 or 703-698-3976, or by going online
- 3 We'll confirm your order, collect some information, and ship your specimens

Comprehensive Services

What do they mean to you?

Innovation. With FaceMatch™, find a resembling donor by uploading your own photos.

Commitment. Purchase and store additional vials for future siblings.

Convenience. Ship to your doctor's office or home (with physician's written consent).

Trust. Rest assured that limits on donor pregnancies are in place.

Connection. Share and get updates at Fairfax Cryobank Family Forums online.

Access. Check your donor's medical status online anytime.

To get started, visit www.fairfaxcryobank.com. Still have questions? Please call us at 800-338-8407 or 703-698-3976.

Storage Services

- **Choose Now; Use Later:** Guarantee availability by buying what you need now as well as what you might need in the future. Store with Fairfax Cryobank and you are eligible for a 50% buy back for vials you no longer need, or an exchange if you prefer a different donor.
- **Store donor sperm, embryos and/or oocytes:** Monthly, yearly and multi-year contracts available.
- **Store your own sperm:** Available for clients who are undergoing treatment or activities that may compromise semen quality.

Donor Screening and Testing

Your health and your baby's health are our highest priority. With that, Fairfax Cryobank does more infectious and genetic disease testing than any other sperm bank in the world. In fact, we are the only sperm bank to screen for the HPV and Herpes viruses by DNA testing. All donors are healthy men with family histories that have been reviewed by our Medical Director, an MD PhD medical geneticist. Extensive genetic and infectious disease testing follows strict FDA guidelines. Our staff gladly will address any specific testing concerns you may have.

If you compare what we do to other sperm banks, you'll see we do more!

Semen Analysis

ABO Blood typing

Hemoglobin Electrophoresis

Genetic Testing:

- Chromosome analysis (karyotype)
- Expanded genetic carrier screening for 280+ diseases on all new donors since January 2018
- Genetic testing summaries viewable on donor profiles
- Special testing for clients who are carriers, if needed

Infectious Disease Testing:

**Fairfax Cryobank is the only sperm bank performing this test or using a more sensitive testing methodology. NAT indicates testing by DNA*

- HIV-1 and HIV-2 antibody
- HIV-1 by NAT
- HIV-2 by NAT*
- Hepatitis B surface antigen and core antibody
- Hepatitis C viral antibody
- Cytomegalovirus (CMV) antibody

For a full list of tests performed, please visit www.fairfaxcryobank.com

Our Quality Standard

Fairfax Cryobank's specimens meet or exceed established quality standards. Each shipment contains a report of the actual post-thaw analysis for each specimen, which will be equal to or greater than our high standard.

Specimen Type	Total Motile Cells/milliliter (TMC)
IUI	20 million/mL (10 million/vial)
ICI	20 million/mL (10 million/vial)
IVF	5 million TMC/vial
ART IUI	>6 million TMC/vial
ART ICI	>6 million TMC/vial

Message from Fairfax Cryobank's Director of Operations

Fairfax Cryobank was founded on uncompromised quality and professionalism and – for over three decades – has helped tens of thousands of women achieve their goal of becoming mothers and building happy, healthy families. We truly believe in and stand behind our services. And, just as our donors are the most tested to help ensure the highest quality, our people are the best trained to deliver the insights and guidance you need. From the first call to client services through every contact point with us along your journey to parenthood, we are committed to earning your trust and making your dream a reality.

Thank you for considering Fairfax Cryobank to help you build your family, now or in the future.

Best regards,

*Michelle Ottey, Ph.D., HCLD
Director of Operations*
