ESSAY QUESTIONS

What is your most memorable childhood experience?	I loved the family vacations that we went on when I was a child. Whether we were going to Florida, or to Lake Erie to go fishing. I have a very close knit family, and we had a lot of fun together.
What immediate family member do you closely identify with and why?	I identify most closely with my mother because she has always been there for me, no matter what. We have shared tears, laughs, and very special memories. She is the strongest woman that I know, and my life would not have been the same without her.
What character traits do you admire in an individual?	I admire somebody who is confident, friendly, honest, charitable, outgoing, smart, adventurous, and has a great sense of humor.
What is the funniest thing ever to happen to you?	One of the funniest things that has ever happened to me was when I was playing baseball in high school. It was my first time starting in a game, and I was playing left field. My coach hit a ball out to me during warm-ups and I didn't realize that as I caught the ball, my left shoe lace got caught in my right cleat. As I went to throw the ball I did a face plant. It was not a great experience when it happened, but looking back on it, all I can do is laugh and think about how funny I must have looked.
If time and money were not an issue, where would you travel and why?	I would instantly fly to Fiji and rent out a hut on the beach. It is the one place I have always wanted to go to and stay for weeks on end. I would spend the time going to the beach and sightseeing around the island.
When and if you ever have children, what would you like to pass on to them?	I would want to teach them honesty, and to be charitable to others. I would also teach them the importance of family and to always do what they would be proud of in the end.
