

# Donor Sperm Services at Fairfax Cryobank

Fairfax Cryobank, the trusted choice for donor sperm, is one of the world's largest sperm banks. With over 25 years experience and a stellar reputation, Fairfax Cryobank serves clients from around the world. We provide the most diverse selection of thoroughly screened donors that meet or exceed our high semen quality standards. We wish you much success and appreciate your interest in the donor semen services at Fairfax Cryobank.

## Message From Fairfax Cryobank's President

For over two decades, Fairfax Cryobank has helped literally tens of thousands of women achieve their goal of becoming mothers and to build happy families. We truly believe in and stand behind our product. Fairfax Cryobank does the most testing of any cryobank in the United States and we are committed to that very high standard. We are also committed to making the experience with Fairfax Cryobank a positive one for all of our clients from the first call to customer service through the medical procedure to dealing with the business side of the relationship (e.g. billing, storage).

Thank you for considering Fairfax Cryobank to help you achieve your goal.

Best regards,  
David Wise, President

## Why Choose Fairfax Cryobank

Large selection of high quality Anonymous and ID Option donor sperm. Only 1% of donor applicants are accepted due to our stringent requirements.

Only sperm bank to screen for at least 86 cystic fibrosis mutations.

Extensive services such as photo matching and donor selection counseling to ensure your choice of donor best meets your needs.

A caring and skilled professional staff with broad experience in screening donor candidates and optimizing donor quality.

Services are available to help you with selecting a donor, storing a donor's specimens for future use and connecting with other clients on our Family Forums.

Credentials you can count on: FDA compliant. American Association of Tissue Banks (AATB) accredited. Licensed to ship in all 50 states and internationally. Accredited with the Better Business Bureau (BBB).

Compare our services to those of other sperm banks. Visit our website for more information.

# Just 3 Easy Steps

1

Select your sperm donor using our online Donor Search: [www.fairfaxcryobank.com](http://www.fairfaxcryobank.com)

2

Place your order by calling us at 800-338-8407 or by going online

3

We'll confirm your order, collect some information and ship your specimens

If you don't know all the details of your order when you call, just ask for our 10-day courtesy hold.

## Finding Your Donor Match

The Fairfax Cryobank Donor Search and the Client Services Specialists are useful tools to assist you in making your important donor selection. Our interactive donor search which is updated daily allows you to search by several specific attributes that are most important to you.

You can use criteria that matter to you to select from our extensive donor list. Choose from three categories of donors: Anonymous, Identity Option (ID) or our lower priced Family Solutions category. All donor categories have extensive medical and personal information available. ID Option donors allow your child, with a registered birth, the option to obtain the donor's contact information from Fairfax Cryobank when he or she reaches the age of 18.

All donors have significant information available including childhood photo, medical profile, personal profile, our staff's impression of the donors personality and physical appearance, audio clips from the donors as well as from our staff about the donors, full audio interviews, personality testing and donor essays.

Many of our donors have adult photos so you can see what they really look like.

## Donor Screening

Donor medical screening at Fairfax Cryobank is our highest priority. All donors are healthy men with family histories that have been reviewed by our Medical Director, an MD PhD medical geneticist. Extensive genetic and infectious disease testing follows strict FDA guidelines. Our staff will gladly address specific testing concerns you may have. DNA based testing (NAT) for infectious diseases, such as Human Papillomavirus (HPV), has been done on all available donors. If you compare what we do to other sperm banks, you'll see we do much more.

## Donor Testing

Semen Evaluation

ABO Blood typing

Hemoglobin Electrophoresis
