Donor Medical History	Family Medical History
No Significant Medical Problems	No Significant Medical Problems

Note: Only pertinent medical history is listed.

Update March 2023: PRS Donor 6639 has tested positive as a healthy carrier for Combined Malonic and Methylmalonic Aciduria (gene ACSF3). No affected child has been reported. Any recipient who wishes to use this donor should be tested negative for ACSF3 before using him. Only if both the egg and sperm source are carriers is there an increased risk for a child with the condition.
